

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

Photon Energy provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 400 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow.

Electro-technician – Metering Systems Installation

Are you passionate about technology and eager to work with our clients in Poland? We are looking for a skilled technician to oversee metering system installations, provide maintenance and build relationships with our clients.

Key Responsibilities

- ▶ Preparing and installing control and measurement equipment, providing diagnostics and maintenance, and ensuring correct long-term operations
- ▶ Ensuring timely scheduling and execution of product installations around Poland, in cooperation with other internal departments within Photon Energy Group
- ▶ Maintaining ongoing contact with clients and acting as point of contact
- ▶ Monitoring and controlling equipment warehouse inventory, including finished products, installation materials and spare parts
- ▶ Installation and pre-configuration of PLC drivers
- ▶ Creating orders for fasteners and other installation materials, and coordinating delivery and timelines with suppliers and subcontractors
- ▶ Collaborating with internal departments (e.g. R&D, Sales, O&M) across Photon Energy Group's markets

Qualifications and Experience

- ▶ Electrotechnical education
- ▶ Strong skills for troubleshooting and resolving on-site technical issues effectively
- ▶ Ability to read and interpret technical drawings, wiring diagrams, and schematics

- ▶ Quick learner, able to adapt to new tools, technologies
- ▶ Strong communications skills to liaise with clients, suppliers, and internal teams
- ▶ Experience in installing, diagnosing, and maintaining control and measurement systems is welcome
- ▶ Polish B2+ and English B2+
- ▶ Category B driving license
- ▶ SEP E+D up to 15 kV is welcome
- ▶ Willingness to travel up to 80%

Our Offer

- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy, environmental remediation and clean water technology
- ▶ Company culture built on trust and diversity
- ▶ Remuneration reflective of individual experience and skills
- ▶ Teambuilding and corporate events
- ▶ Support for ongoing professional growth through tailored training sessions, courses, and more
- ▶ Medicovert SPORT allowance
- ▶ Medical package allowance and Meal Card
- ▶ 1 CSR day (a working day dedicated to a non-profit organisation aligned with the Group's mission and values) activities
- ▶ Laptop, mobile phone, tools and workwear
- ▶ Access to a company car for business trips
- ▶ Full-time employment contract

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to careers@photonenergy.com.
